## PUPPIES PUPPIES PUPPIES!!

LAB MIX and BEAUTIFUL

These Lab mix puppies are cute as can be. Their mom gave birth to them and 3 days later passed away. We took them in and bottle fed them at 3 days old and now they are happy healthy pups that are ready for adoption! Some have already found their loving forever homes! Some are still waiting! Maggie is adventurous, she was the first to go out the doggie door while Jordan is more laid back. Casey is on the smaller side while Martin is a big guy. Owen can hold his own and is becoming the most beautiful brown color (adopted). Adoption fee is \$100 for males and \$150 for females. When they are spay/neutered we pay \$50 towards the males and \$60 towards the females. Don't miss out on these bottle fed babies!! They are up to date with their shots, received a frontline treatment and have been wormed. They were born on April 26th. If you are interested in these puppies please go to our website and fill out an adoption form on our adoptions page. We were having a little technical difficulties with our adoption form so if you do have any problem please do not hesitate to contact me at [fran@morningstarr.org](mailto:fran@morningstarr.org) and I can email the form to you. It can be emailed back for faxed to 928-634-2800.

## Peter Paul & Mary

Living the life!!

When Peter, Paul and Mary arrived we knew they needed a special home with lots of love and a great environment. They were adopted to what we knew was a great home and this picture says it all! I asked the people if they would adopt me too. This is the life we want for all our adopted animals!

## Rosie's Love Story

We adopted Rosie from Morning Starr Animal Sanctuary in October of 2010. Immediately we recognized that this one was extra special. For those who know ferrets, they come with their own unique personalities. Rosie was a love! She spent hours lying next to us on the couch or across our feet while we watched TV. She was the biggest snuggle bug! We would round corners and find her “spread eagle” in the middle of the floor. Unusual as our other babies prefer corners, under or behind furniture. She was the tiniest dark chocolate sable who followed our other baby ferret around the house like the annoying kid sister. She always wanted to be around us or one of the other animals and was hands down, a daddy’s girl. Simply the sweetest little thing ever. She was so trusting and the softest creature, her fur like silk. Even though we only had her a little over six months before losing her unexpectedly, she was a genuine joy. She loved to tease our dog and made a routine of throwing half her body in the dogs food dish (empty or full) with her legs and tail splayed. Her favorite nook was the dogs kennel curled into a ball on the pillow. You’ve never seen anything so cute! My fondest memory was watching her stare up at the dogs food dish after we put it up high (for the dogs sake) and wiggling her back side preparing to jump the impossible distance to the bowl. Our hearts are broken but we feel it’s important to share that no matter if it’s two days, two months, or two years, pets leave a special stamp on your heart and are worth every single moment we get to have with them. We wouldn’t change a single thing, what a gift!

We are so deeply honored for the opportunity to have time with this little one. Thank you Morning Starr for our wonderful little girl. She will be sorely missed. We love you Rosie!

All our love,  
Anna & James

Remember to keep your pets safe as many are afraid of fire works and the sounds that they make! Animals too near exploding fireworks can become victims of burns and eye damage. Even from long distances away our animals can hear them and want to run away! Put music on to cover the sound of the fireworks. Never punish or fuss over your pet when it is scared as this will make things worse. Pheromone diffusers and thunder shirts may help to keep your pet calm.

## New Phone Books .....

means good teeth for your bunnies!

Remember to toss your old phone book to your bunnies! It is good for their teeth and keeps them from chewing your electric cords! Bunnies do not take heat well so if they are kept outside set up a mister system for them. They will love it!

**Thank you to the  
AMERICAN LEGION  
Post 135 in Cornville**

This group just keeps giving and giving. As soon as they heard that the puppies arrived and I needed blankets and towels they went above and beyond.! I picked up so many that I am still using them. They have also assisted with donations of dog and cat food, bowels and too much to mention. They made it possible to have more than enough towels and blankets for the puppies.

**THANK YOU!!**

There is a cool way to raise money, every time you shop online or search the web, and I think you should check it out:

**\$325.34 raised so far!**

Due to illness we know of someone who is trying to find forever loving homes for some of their wonderful bunnies! All males are neutered. Many different kinds and sizes. Lots of mini's and babies. For more information please contact Lori @ 928-592-8153. These are not Morning Starr animals but we are trying to help find them homes through this ad.

**The SNAP counter**

This is a running total of how many dogs and cats we have spayed and neutered with our Spay Neuter Assistance Program, thanks to you!

**Dogs & Cats      140**

**PET OVERPOPULATION CAN BE CONTROLLED.  
In fact it's a SNAP!**

If you want to spay or neuter your pet or maybe some cats that are just hanging around we can help assist you with our Spay Neuter Assistance Program (SNAP)! Here is a list of Veterinarians who have our SNAP applications on hand: Montezuma Vet Services in Camp Verde, Tumbleweed Vet Clinic in Cottonwood and Jerome Humane Society in Jerome. You can also download our application on our website on the home page. If you are a Senior, 65 years or older assistance is a slightly larger amount.
